A GOOD MOVENENT.

Freedmen's Hospital, Washington, D. C., Nov. 6, 1894. To the E litor:

To necessity for the organiza tion of a medical society in the District of Columbia, such as will admit all applicants who are members of the regular profession and in good st: m ling, is conceded by all. We fell that isolated dis cussious can avcomplish but little, if any, go d; but a meeting of all those concerned would bring the matter before the profession as a whole for discussion and organization. We, therefore, invite al the in the District of Columbia to at. end a meeting at the Freedmen's Novemb r 21, 1894, at 7.30, to consher the advi-ability and plans for the organization of a medical society in the District of Columbia.

HE WAS BARBACUED.

There were fully 500 people present to eat of the barbacued ox The ox must have weighed about 800 pounds. The boys intended that everybody should have some of that ox. About 3 o'clock the executioners came and made preparations to barbacue the ox, which done to perfection. The fire was lighted and less than two hours the crowd commenced to eat. There was a band of mu ic present and it poured forth sweet strains of music between the speeches that were made by W. H. Brooker, W. Calvin Chase, C. L. Barnes

The crowd did not disperse until 1 o'olock, at which time Mr. Brooker and a party of friends left for Bladensburg, Md., to help out the republicans there.

A JUDGE'S PECULIAR ACTION.

From the Staunton Tribune. Last week, during the session of court in columbia, it happened that a negro was on the jury. A case was turned over to the jury. The negro failed to agree with the rest of the jury, whereupon the foreman reported to the court the color line had been drawn in the jury room. Upon the word of this foreman Judge Benet expelled the colored juror from the court room and ordered his name stricken from the list; yet on the contrary this colored man emphatically denied the charges as preferred by the foreman

COLORED PEOPLE MURDERED. NO PROTECTION FOR THEM SOUTH.

(From the Lodge Journal.) For years the white and colored screwmen have worked in harmony with but t few exceptions, all on the side of the whites, a few of whom had let their race prejudice get the better of them and have for years been trying to fo ment trouble for the purpose of inaug prating a crusade against the colored brother and drive him from the field of employment, and they have at last succeeded. The announcement of the suc cess of their nefarious efforts came in its bloody sequel last aturday whe colored men were shot down like dogs. in the very presence of the police, who looked complacently on while he brutes

were doing their murderous work. Friday night the miscreants, armed to the teeth, boarded all the sh ps that members of the medical profession were being loaded y the colored screwmen, and, like vandals, destroyed the

them in the river Not satisfied with this, they marched upon the colored workmen Saturday, without warning, and shot some of then to death. The number killed will no be rightfully told for weeks, perhaps months; later, when the murky waters of the Mississippi will give up the victims of this cowardly slaughter.

Any community that allows commu nists or communistic principles to rule and control its affairs will be shunned by the business world as a pest-hous and where prosperi y once dwelled here

will come want and penury.

Not one of these, though well known. will ever be punished. No, not one; but they will walk through the streets like heroes, having killed "his nigger."
As if to endorse the outrage, the steve-dores and commercial bodies made haste and accepted the scandalous proposi ion of the murderers to shut the ne gro en irely out of work. The Great God of Hosts is looking down upon it al!, and in His own time and way will launch his terrible juggernaut upon the wicked.

ANOTHER TRAIN ROBBERY.

Fire Two Hundred Shots and Loot the Express Car. Wagoner, I. T., Oct. 22.—The Kanas Olty and Memphis express, which left here at 9:30 Saturday night, was wrecked and robbed by ten of the Cook gang of white and half-breed desperadoes at Correta, a blind siding five miles south of here. The train was run into a string of box cars. The robbers forced Express Messenger Ford to open the doors by perforating the side of the car with bullets. The two robbers in the express car secured all the money in the local safe, but didn't get into the through safe. Jack Mahar, advance agent for Mahar's Minstrels, was dangerously if not fa-tally wounded. Walter Barnes, of Van Buren, Ark., was slightly injured. Special Officers Helmick and Dickinson, of the Missouri Pacific, were on the train, also United States Deputy Marshals Brunner and Casaver, but they were covered by Winchesters in the hands of the bandits before they had time to make a move. THE ELECTION.

Well, just as the BEE predicted; Hill was defeated in New York and the next House of Representatives will be Republican. Mr. Hill was too ambitious, he could not expect Mr. Cleveland to support him when he, in 1888 was the cause of Mr. Cleveland's defeat by his trade in New York.

The citizens of New York certainly want a clean government and the defeat of the Tammany ticket means a clean government in the State of New York. Morton is elected, there is no doubt. Wilson. the author of the wild cat tariff bill is also defeated.

The Negro democrats were weighed in the balance and found wanting. This is because the proper men have not been selected to represent the Democratic administration. Mr. Cleveland, as well as the Democratic managers are convinced that the Negro Democrts under the Matthews regime were recogn zed. There was a healthy Negro Democratic vote that could always be depended

The defeat of Mr. Hill in New York means that the State of New York wants a clean and pure administration.

The eyes of the country were centered on that State and the result was not a surprise to the people.

Ex.Mayor Grant takes bis defeat philosophically and encourages his party to hope for success in 1896. Tammany Hall is no more and it will go in history embedded in corruption and defeat.

OUR SCHOOLS.

There is no reason why one class of married women should be allowed to teach in the public schools and another class prohibited, and when they ask the reason of the discrimination they are told there is a law against it. Will one of the trustees of the

public schools answer this question? There are two married women in

the high school substituting when their places should be held by those who are more in need.

Mrs. Julia M. Layton, wife of Mr. J. T. Layton, is a substitute in the high school; Mrs. Terrell, wife of Mr. Robert H. Terrell, formerly chief of a division in the Fourth Auditor's office, has been teaching in the high school during the long illness of Mrs. Patterson and since her death. She is drawing full pay. It would have been better if the trustees had appointed one of the older teachers who is principal of one of the buildings which would have created a vacancy for one of the normal school graduates. Mrs. Layton's husband is a music

teacher in the eighth school division and drawing a salary sufficient ly large enough to support a wife. Why not give some of the poor, unemployed normal school gradnates a show?

It is about time that the trustees of the schools put a halt to this kind of discrimination as the people do not propose to stand it much longer.

A MEDICAL SOCIETY.

At last the colored physicians of this city have come to a wise conclusion, and that is to organize a medical society officered by eminent physicians of their own nationality, thus giving the white prejudiced medical society of this city to understand that the negro will no longer be under any obligations to them.

A few suggestions to the movers of this new organization will not be out of place. The officers should be men of ability and influence. Admission to membership should be based upon ability and character and not sentiment.

A great deal of good can be accomplished if the organization if properly conducted.

In another column of this paper will

be seen a letter to the editor signed by such well-known physicians as Drs. F. J. Shadd, John R. Francis, Daniel H. Williams, John C. Norwood and Thom-

as Martin. If colored lawyers would take into their heads the importance of a similar organization the legal profession would be held in higher esteem.

All reform movements succeed in course of time.

Mr. Douglass wrote Mr. Langston a letter complimenting him for that reply to Ingal's, which is reproduced below with Mr. Laugston's letter to the editor of the Bee:

HILLSIDE COTTAGE, Washington, D. C., Oct. 31, '94. DEAR MR. CHASE:

As per your request, verbally made, in a conversation which I had with you to-day, I herewith hand you a copy of a letter which I received on the 19th day of June, 1893.

I have never at any time entertained or expressed approval of any views held or expressed by ex Senator Ingalis with respect to Negro suffrage. Nor have ever proposed myself any curtailment or qualification of the suffrage either upon color or nationality. I have always fayored one rule for every American citizen, to be sustained and en-forced in behalf of every one entitled thereto. This you know very well; and you know more, that whenever my voice, my influence, my efforts, and my vote have been needed to promote the welfare of the colored American they have been given freely without stint and without remunera tion. I have deemed it not only a duty but an exalted privilege and pleasure, to serve my race. And no honest man, tolerably informed can question in any just sense this statement. And how any fair-minded person, himself intelligently and heartily interested in the colored people of the United Satecould rank me with any class of their opposers I do not understand.

Yours, JOHN M. LANGSTON.

EXPOSITION UNIVERSELLE DE CHICAGO Commission Haitienne, June 17, '93 Hon. JOHN MERCER LANGSTON,

SIR: Not even the fear of misconstruction shall prevent the expression of my approval of your ample and admirable reply to the infamous attack of Senator Ingalls on the colored citizens of the Republic. You have done many good things during your public life wor-thy of your name and fame, but you have done no hing more worthy of your head and heart than unhorsing this mad-cap exSenator. As one of those who should be especially grateful, I give you hearty thanks for your work. It has the merit of being on time. Ingalls seems not to know that he is dressing himself in the musty rags of a bygon generation. Somebody ought to tell him that Calhoun is dead and that slavery is abolished, and that even he, him-self, as a political possibility is blotted

out forever. Faithfully yours, (Signed.)

Mr. Douglass next attacked Prof. Langston in the Metropolitan Church while he was sitting on the stage in the presence of Mr. Donglass and shortly after Mr. Douglass wrote Mr. Laugston that flattering letter. The thumb is an unfailing index of character. The Square Type indicates a strong will; great energy and firmness. Closely allied is the Spatulated Type, the thumb of those of advanced ideas and business ability. Both of these types belong to the busy man or woman; and Demorest's Family Magazine prepares especially for such persons a whole volume of new ideas, condensed in a small space, so that the record of the whole world's work for a month may be read in half an hour. The Conical Type indicates refinement, culture, and a love of music, poetry, and fiction. A person with this type of thumb will thoroughly enjoy the literary attractions of Demorest's Magazine. The Artistic Type indicates a love of beauty and art, which will find rare pleasure in the magnificent oil-picture of roses, 16¼ x 24 inches, reproduced from the original painting by be Loughré, the most celebrated of living flower-painters, which will be given to every subscriber to Demorest's Magazine for 1895. Besides this, an exquisite oil or water-color picture is published in each number of the Magazine, and the articles are so profusely and superbly illustrated that the Magazine is, in reality, a portfolio of art works of the highest order. The Philosophic Type is the thumb of the thinker and inventor of ideas, who will be deeply interested in those developed monthly in Demorest's Magazine, in every one of its numerous departments, which cover the entire artistic and scientific field, chronicling every fact, fancy, and fad of the day. Demorest's is simply a perfect Family Magazine, and was long ago crowned Queen of the Monthlies. Send in your subscription: it will cost only \$2.00, and you will have a dozen Magazines in one. Though not a fashion magazine, its perfect fashion pages, and its articles on family and domestic matters, will be of superlative interest to those possessing the Feminine Type of Thumb, which indicates in its small size, slenderness, soft nail, and smooth, rounded tip, those traits which belong essentially to the gentler sex, every one of whom should subscribe to Demorest's Magazine. Catile Steamer Has a Hard Time at

Sea Was Adrift and Helpless. New York, Oct. 15 .- Cattle men who reached New York Friday on the National line steamer Greece, from London, brought news that the Europe, another vessel of the same line, encountered a terrific storm during her last run from this port to London. The ship labored terribly, and between 1 and 2 o'clock in the morning the pens on the port side gave way, and the cattle which had been tled there were thrown out upon the slippery deck, and slid hither and thither as the ship rolled, making terrific endeavors to regain their feet until they were too weak to move and lay down to die. The crew was small, and even though the wind abated, it was not until 4 o'clock in the afternoon that the steering gear was repaired and the steamer got under way. Then the sailors threw overboard 233 cattle and 187 sheep that had been injured or killed.
